It was a wonderful experience at universal informatics. I joined universal to gain some industrial demanding skills. Before joining universal, I struggled a lot to get the desired job. I completed my graduation in 2019. I was not happy with the college placements, so I decided to study further. But during covid, I had to start earning and I was not satisfied with the work I was doing before. But as soon as I enrolled for the placements drive at Universal, within a week or two I got a great opportunity to work for an MNC. I am very grateful to the placement team at universal, with their support I got the opportunity I was always looking for.

Universal informatics is Indore's best training center for learn programming languages like c++,java,python,php etc as well as placement center in good software companies. Universal provides HR sessions, notes,doubt sessions, weekly tests,assignments which are helpful to inhance skills. placement cell and faculties are too supportive and helpful. I joined Universal informatics for learn programming languages and for placement and finally I got placed in good software company. Thank you so much Universal informatics

I Have Completed MERN Stack Training From This Academy....My experience with Universal Informatics was quite well My Coding Knowledge was Zero and I have learnt a lot .. Specialty Node Java Script & got Placed in same Technology ... Equal attention was given to every individual which is the best part of UI and it's faculties. So I would suggest if your really interested in Coding you should try Universal Informatics ... No Matter From Which Stream Are You Graduated From. You Can Learn Software Development ..This Academy will help You to overcome your fears and In achieving your goals....

Thanks Universal Academy

Universal informatics is one of the best coaching classes in indore. I have learnt C, C++, java core + advance from universal its been a great experience here. Teachers are very supporting and encouraging. Teachers are all time available for doubt clearing. Even administration is so helping. And the best thing is in this time of covid-19 administration was all the time in touch regarding online classes. They didn't let our studies suffer during this pandemic time.
